RENZ JOHN ISAAC P. FELIPE

Pasay City, Metro Manila | +639-948-715-952 | feliperenz22@gmail.com | GitHub: https://github.com/Frenz22

PROFESSIONAL SUMMARY

IT graduate with hands-on internship experience in software development, ERP customization, and technical support. Proficient in Python, JavaScript, and PHP, with practical experience building and deploying full-stack applications and troubleshooting hardware, software, and network systems. Reliable, detail-oriented, and quick to learn new tools and platforms in fast-paced environments.

EXPERIENCE

Developer Intern
Filmetric Corporations, Quezon City Aug. 2024 - Dec. 2024

- Developed and customized Odoo ERP modules to support HR processes and business requirements, improving workflow efficiency.
- Diagnosed and resolved system issues through hands-on troubleshooting, reducing recurring errors.
- Tested and debugged software features prior to release to ensure functionality and quality standards.
- Deployed and updated required modules in the live environment, maintaining system stability and uptime.

IT Intern
Makati High School, Taguig Feb. 2024 - May. 2024

- Installed and configured computer systems and networks to support school operations.
- Delivered technical support to students and staff, resolving hardware and software issues in a timely manner.
- Diagnosed and repaired connectivity issues across PCs, thin clients, mesh networks, and routers.
- Reformatted and reconfigured thin clients and system units to restore devices to working condition.**PROJECTS**

Frenz Job Tracker – Job Application Dashboard

Source Code: https://github.com/Frenz22/Job-Tracker Live link: https://frenz-job-tracker.onrender.com

- Built a Flask and MongoDB Kanban-style dashboard with authentication, status tracking, notes, interviews, and application history.
- Deployed with Gunicorn on Render, using MongoDB Atlas (via PyMongo) as the cloud database.

Real-Time Chat Application with Task Tagging
Source Code: https://github.com/Frenz22/Renz-ChatApp Live link: https://renz-chatapp.onrender.com

- Built a full-stack real-time chat app with live user messaging and persistent history using Node.js, Express, Socket.IO, and MongoDB.
- Designed a custom task-tagging feature converting chat messages into assignable, trackable tasks with real-time sync, then deployed to Render with MongoDB Atlas.

SKILLS

Programming Languages: Python, JavaScript, PHP

Frameworks & Tools: Odoo, Flask, Express.js, React, Node.js, Socket.IO, Jinja2, Gunicorn, Git

Databases & Markup: MySQL, MongoDB, MongoDB Atlas, PyMongo, HTML, CSS, XML

Deployment Platforms: Vercel, Render, GitHub

Technical Support: Network cabling, hardware troubleshooting (system units, routers, thin clients), system configuration

EDUCATION

Bachelor of Science in Information Technology (CUM LAUDE)
Rizal Technological University, Mandaluyong City | 2021 - 2025

Senior High School, STEM Strand
Sta. Clara Parish School, Pasay City | 2018 - 2020
